# VOLUME 22, 1976

## SUBJECT INDEX

### KEY TO ABBREVIATIONS

A, abstract of meeting paper  
CR, case report  
E, editorial  
H, history

L, letter  
O, opinion  
orbit, obituary  
R, review

S, symposium paper  
SM, Selected Methods  
SN, scientific note  
SR, special report

### AACC

AACC award winners, 1976, 699  
AACC endorses NCCLS Standard ASC-2, 1767  
AACC symposia, 28th national meeting (A), 1131  
AACC 28th national meeting, 565  
ages of new members (1975), 704  
Awards, 295  
continuing education and ACCENT, 1945  
Cotlove Award, 956  
Current Topics in Clinical Chemistry, vol 2, 954  
DORA file, 956  
general diagnostics lectureship 1976: Evan and Marjorie Harning (A), 1131  
journal progress, 403  
local section histories, Chicago, 111; N.Y. upstate, 1933 (H)  
national meeting, 1976, 1765  
2nd Int. Symp. on Clin. Enzymol., Chicago, October 1975, 130  
report of the 2nd conf. on education in clin. chem. (SR), 541  
Roe Award, 133  
seminar on thyroid function, 409  
symp. on porphyrin measurements: laboratory and clinical aspects, 133  
symposia program, 28th national meeting, 403  
28th national meeting, scientific program, 1114  
28th nat. meeting, workshops, 1147  
training programs in clin. chem. 547

### Abused drugs

See Drug assay, Toxicology

### Accuracy

See Analytical error

### Acetaminophen

gas-chromatog. method for acetaminophen (N-acetyl-p-aminophenol) based on sequential alkylation, 879  
interference by acetaminophen in the glucose oxidase-peroxidase method for blood glucose detn. (SN), 1729  
N-Acetylglucosaminidase  
N-acetylglucosaminidase and  $\gamma$ -glutamyltransferase in urine and renal-transplant rejection (L), 925  
N-Acetylneuraminic acid(s)  
See Sialic acids  
N-Acetyl-p-aminophenol  
gas-chromatog. method for acetaminophen (N-acetyl-p-aminophenol) based on sequential alkylation, 879

### Acid phosphatase

clin. column-chromatographic method for isolation of prostatic acid phosphatase isoenzymes (A), 1176  
improved detn. of prostatic acid phosphatase (sodium thymolphthalein monophosphate substrate), 627  
kinetic detn. of total and prostatic acid phosphatase using front surface fluorescence (A), 1176  
optimized continuous-monitoring procedure for semiautomated detn. of acid phosphatase acty. (SN), 2025

sepn. of tissue and serum acid phosphatase isoenzymes by ion-exchange column chromatog. (A), 1176

### Adenosine diphosphoribose

purifn. and anal. of the purity of NADH, 1322

### Adenosine monophosphate

purifn. and anal. of the purity of NADH, 1322

### Adenylate kinase

creatine kinase in serum: 2. interference of adenylate kinase with the assay, 1806  
evaln. of adenosine 5'-monophosphate and fluoride as adenylate kinase inhibitors in the creatine kinase assay, 1078  
interference of adenylate kinase with creatine kinase acty. measurement (A), 1183

### Affinity chromatography

centrifugal system for affinity chromatog. with eluate monitoring (S), 1493

### Albumin

binding of bilirubin and palmitate by fragments of human serum albumin (A), 1201  
erroneously high albumin values by SMAC, and their correction (L), 2056  
improved specificity of serum albumin detn. and estn. of "acute phase reactants" by use of the bromocresol green reaction, 616  
measurement of total protein and albumin in serum with a centrifugal analyzer, 1102  
tracer dye binding in polyacrylamide gel electrophoresis of human serum albumin (A), 1200

### Albumin-titratable bilirubin

"albumin-titratable bilirubin" as an index to bilirubin binding (L), 560

### Alcohol

alcohol detn. in biol. liquids by sensing with a solid-state detector, 863

### Alcoholism

evaln. of methods of coenzyme activation of erythrocyte enzymes for detection of deficiency of vitamins B<sub>1</sub>, B<sub>2</sub>, and B<sub>6</sub>, 327

### Aldolase

stabilization by boric acid of aldolase acty. at room temp. (L), 1543

### Aldosterone

aldosterone measurement: comparison of two RIA kits (A), 1184  
simple fluor. detn. of aldosterone in urine without use of isotopes or chromatography (SN), 369

### Aliquoting plasma and cells

instrumental sample-prepn. technique for an automated immunohematology assay system (S), 1456

### Alkaline phosphatase

alkaline phosphatase. II. Conditions affecting detn. of total acty. in serum, 977  
alkaline phosphatase. I. Kinetics and inhibition by levamisole of purified isoenzymes from humans, 972  
comparative effects of DEA versus AMP buffer on alkaline phosphatase isoenzymes (A), 1221

evaln. of an alkaline phosphatase procedure utilizing  $\alpha$ -naphthyl phosphate as substrate on the ABA-100 (A), 1173

inhibition of alk. phosphatase acty. by serum albumin (L), 1751

parallel electrophoretic fractionation of alk. phosphatase and serum protein on cellulose acetate strips: clin. evaln. (SN), 261

quant. detn. of placental alkaline phosphatase by an electroimmunoassay technique (A), 1163

quant. fractionation of alk. phosphatase isoenzymes according to thermostability, 42  
relationship between alk. phosphatase and creatine kinase acty. (L), 116

sepn. and measurement of a variant alkaline phosphatase isoenzyme (A), 1177

serum alk. phosphatase measured by using thymol blue monophosphate and a bichromatic analyzer (SN), 1737

simple, reliable method for alkaline phosphatase isoenzymes in prostatic cancer (A), 1174

### Aluminum

measuring pg amts. of Al in biol. tissues by flameless at. absorption anal. of a chelate, 53

### American Association for Clinical Chemistry

See AACC

### Amino acids

amino acid compn. of human nail, as measured by gas-liquid chromatog. 1608  
amino acid ratios in health and disease (A), 1202

computerized system for storage and statistical anal. of clin. amino acid data, 19  
potentialities of an inexpensive computer system for anal. of clin. amino acid data: forecast and speculation (E), 16

procedures compared for extracting free amino acids from polymorphonuclear leukocytes, 1618

### $\alpha$ -Aminocaproic acid

gas-chromatog. detn. of an antifibrinolytic drug,  $\alpha$ -aminocaproic acid, 806

### Aminolaevulinic acid dehydratase

See also Uroporphyrinogen I synthase

### $\delta$ -Aminolevulinic acid

possible mechanism of the interference by porphobilinogen in the direct determination of urinary  $\delta$ -aminolevulinic acid (L), 1540

### Amino nitrogen

fluorometry of plasma amino N, with use of fluorescamine, 413

### Aminophenol

colorimetry of carbohydrates with m-aminophenol: use in measurement of serum amylase acty. 169

### Amitriptyline

gas-chromatog. anal. for therapeutic concns. of amitriptyline and nortriptyline in plasma, with use of a nitrogen detector, 777

### Ammonia

improved precision and accuracy of plasma ammonia detn. (A), 1187

- microscale modn. of a cation-exchange column procedure for plasma  $\text{NH}_3$ , 1976
- technical pitfalls in measurement of venous plasma  $\text{NH}_3$  concn. 663
- Amniotic fluid**
- cholesterol in amniotic fluid, determined by gas chromatography, 224
- specificity and reproducibility of acetone pptn. in identifying surface-active phosphatidylcholine in amniotic fluid (SN), 681
- Amphetamine**
- relative merits of some methods for amphetamine assay in biol. fluids, 789
- Amylase**
- adaptation of an enzyme coupled amylase procedure to the centrifugal analyzer (A), 1196
- assay for  $\alpha$ -amylase utilizing modified starch as substrate (A), 1164
- automated turbidimetric amylase detn. on a discrete kinetic analyzer (A), 1164
- colorimetry of carbohydrates with *m*-aminophenol: use in measurement of serum amylase acty. 169
- effects of lipemic serum samples on amylase acty. (A), 1223
- electrophoretic amylase fractionation as aid in diagn. of pancreatic disease, 57
- electrophoretic pattern of amylase isoenzymes in serum and urine of normal persons, 439
- enzymatic detn. of serum amylase (A), 1164
- enzymatic, fluorometric assay of  $\alpha$ -amylase in serum, 1702
- interbatch variability in measurement of urinary amylase with a commercial kit (L), 556
- interferences with the starch-iodine assay for serum amylase acty., and effects of hyperlipemia, 2006
- kinetic spectrophotometric method for the detn. of amylase (A), 1219
- new enzymatic kinetic method for detn. of  $\alpha$ -amylase (A), 1219
- serum amylase determination using DuPont aca (A), 1178
- serum amylase in normal infants (A), 1217
- stoichiometric approach for detn. of serum amylase (A), 1164
- Analysis of variance**
- anal. of variation in automated detn. of Na, K, and Ca ions in human serum, 993
- Analytical error**
- anal. of variation in automated detn. of Na, K, and Ca ions in human serum, 993
- avoidance of errors in the automated detn. of serum enzyme activities by use of a strip-chart recorder (L), 1411
- "case of the latex gloves" in scintillation counting (L), 552
- collection of blood uncontaminated with Ca, Cu, Mg, or Zn, for trace-metal anal. (L), 691
- contaminant(s) in phase-separating paper (L), 1756
- convenient method for checking detector response of spectrophotometers at three wavelengths (SN), 101
- creatine kinase in serum: 1. detn. of optimum reaction conditions, 650
- electrical interference with recorders from a paging system (L), 1755
- enzyme proficiency: a study to generate the components of anal. error in the clin. lab. (A), 1225
- evaluation of a new micro collecting device (SN), 2034
- gas-chromatog. micro-scale procedure for theophylline, with use of a nitrogen-sensitive detector, 765
- influence of simulated line voltage fluctuations on performance of clin. lab. instrumentation (A), 1221
- interference by acetaminophen in the glucose oxidase-peroxidase method for blood glucose detn. (SN), 1729
- interference by creatine with detn. of serum creatine kinase (SN), 1741
- low apparent creatine kinase acty. and prolonged lag phases in serum of patients with metastatic disease: elimination by treatment of sera with SH agents, 1889
- misuse of calibration sera in automated lab. testing instruments (L), 561
- modified detn. of total and inorg. Hg in urine by cold vapor atomic absorption spectrometry (SN), 1719
- nonleakage of radiiodide through plastic (L), 692
- positive interference by cephalosporin antibiotics with clin. chem. tests (A), 1226
- proficiency testing for blood-gas quality control, 1675
- propagation of error anal. of the enzyme acty. expression. a model for detg. total system random error of a kinetic enzyme analyzer (S), 1438
- reference serum vs. duplicate unknowns as a measure of precision (A), 1213
- scheme for monitoring Bichromatic Analyzer ABA-100 optical performance (A), 1217
- selection of assay tubes for radioassay procedures (SN), 1745
- serum cholesterol and triglycerides by gas-liquid chromatography, compared with a continuous-flow technique, 1692
- toward absolute methods in clin. chem.: application of mass fragmentography to high-accuracy analyses, 1789
- use of drug interference data in clin. chem. (A), 1136
- Analytical systems**
- See also Centrifugal analyzers
- anal. of variation in automated detn. of Na, K, and Ca ions in human serum, 993
- application of a vidicon spectrometer for simultaneous multicomponent drug detns. 1862
- bichromatic anal. with the ABA-100—a critical assumption (L), 559
- clin. lab. evaln. of the Perkin-Elmer KA-150 Enzyme Analyzer, 434
- clin. lab. evaln. of the Perkin-Elmer KA-150 enzyme analyzer (A), 1172
- clin. signif. of spinal fluid lactic acid by the DuPont aca (A), 1220
- comparison of results for 13 clin. lab. detns. with three automated anal. systems, 346
- comparison of the Gilford System 3500 with the Beckman System TR for measurement of enzyme activity in patients' serum (A), 1172
- development and use of anal. systems based on mass spectrometry (A), 1131
- evaln. of a discrete-sample computer-directed clin. analyzer, 211
- evaln. of a vidicon spectrometer for simultaneous drug detns. (A), 1198
- instrumental sample-prepn. technique for an automated immunochemistry assay system (S), 1456
- interfacing and on-line operation of a Gilford automatic enzyme/endpoint analyzer with a "turn-key" laboratory computer (A), 1161
- minicomputer-automated array spectrometer for liquid-chromatog. detection of metabolites (S), 1472
- misuse of calibration sera in automated lab. testing instruments (L), 561
- National Committee for Clinical Laboratory Standards proposed standard PSEP-1: protocol for establishing the precision and accuracy of automated anal. systems (A), 1214
- performance studies, Technicon "SMAC" analyzer: precision and comparison of values with methods in routine lab. service, 489
- practical evaln. of the basic (TM) (formerly Acuchem) Biokinetic Analyzer (A), 1173
- speed of temp. equil. in anal. systems (L), 1542
- Analyzer**
- See specific type or analyte, analytical systems
- Anemia**
- plasma fibrinogen and anemia: further studies on the utility of fibrinogen in multiphasic screening and in assessing the activity of diseases (A), 1212
- Anesthesia**
- effect of halothane anesthesia on muscle, liver, thyroid, and adrenal-function tests in man, 217
- Angiotensin I**
- plasma renin acty. and RIA of angiotensin I (L), 692
- RIA of plasma renin acty. 250
- Anion gap**
- anion gap: its use in quality control, 643
- negative anion gap in a young adult with multiple myeloma (CR), 1920
- Anodic stripping voltammetry**
- micromethod for blood Pb anal. by anodic stripping voltammetry, 221
- Antibiotics**
- RIA for clindamycin, 828
- RIA of antibiotics and chemotherapeutic agents (R), 736
- Antibiotics, sensitivity to**
- autonomic quant. radiometric assay of bacterial metabolism (S), 1459
- Antibody specificity**
- RIA of bile acids in serum, 602
- Anticonvulsant drugs**
- gas-chromatog. measurement of anticonvulsant drugs in serum, 860
- micromethod for measuring anticonvulsant drugs in serum by high-performance liquid chromatog. 856
- Anticonvulsants**
- detn. of anticonvulsant drugs in serum by gas chromatography following adsorption on charcoal (A), 1208
- detn. of serum concns. of anticonvulsants with a fully mechanized enzyme analyzer (A), 1208
- evaln. of mass spectrometric and gas chromatog. procedures for detn. of sedative-hypnotic drugs in whole blood (A), 1167
- gas-chromatographic anal. for succinimide anticonvulsants in serum: macro- and micro-scale methods, 341
- rapid micromethod for the anal. of anticonvulsant drugs by high-performance liquid chromatography (A), 1208
- rapid, sensitive detn. of anticonvulsants and barbiturates by GC with nitrogen-selective detector (A), 1208
- simultaneous high-pressure liquid-chromatographic detn. of anticonvulsants in serum, 25
- ultramicro gas-chromatog. anal. for anticonvulsants, with use of a nitrogen-selective detector, 1062
- Antitrypsin**
- electrophoretic quant. of alpha-1-antitrypsin and transferrin (A), 1200
- immunofixation. II: application to typing of  $\alpha_1$ -antitrypsin at acid pH (SN), 1735
- inborn  $\alpha_1$ -antitrypsin in two mouse inbred strains and their  $F_1$ -hybrid and their resistances to pulmonary disease (A), 1217
- use of  $\alpha$ -N-benzoyl-L-arginine-p-nitroanilide as trypsin substrate in estn. of  $\alpha_1$ -antitrypsin (L), 1754
- Arylsulfatase**
- urine enzyme activities in acute leukemia—arylsulfatase as a noninvasive technique for monitoring response to therapy (A), 1175
- Ascorbic acid**
- estn. of platelet or lymphocyte ascorbic acid content: modified micromethod (A), 1192
- mechanized (continuous-flow) measurement of serum ascorbic acid (Vitamin C) (SM), 105
- Asparagine**
- improved cation-exchange separation of asparagine and glutamine in the presence of other amino acids (L), 1233
- Aspartate aminotransferase**
- aspartate aminotransferase acty. in serum. factors in supplementation with pyridoxal-5'-phosphate in vitro, 1876
- defect in the methodology of aspartate aminotransferase detn. with SMAC (L), 284
- temp. as an anal. variable in assay of aspartate aminotransferase acty. (A), 1224
- use of the IFCC-recommended method for aspartate aminotransferase, and other optimized enzyme assays, with the centrifugal analyzer (A), 1197
- Aspirin**
- interference by aspirin with some common clin. lab. assays, 837
- Atomic absorption spectrometry**
- modified detn. of total and inorg. Hg in urine by cold vapor atomic absorption spectrometry (SN), 1719
- Atomic absorption spectrophotometry**
- See Atomic absorption spectroscopy
- Atomic absorption spectroscopy**
- comparative evaln. of energy dispersive X-ray fluorescence spectroscopy and inductively coupled plasma emission spectrometry for multi-element anal. in complex biologic matrices, 2018
- Measuring pg amts. of Al in biol. tissues by flameless at. absorption anal. of a chelate, 53
- Pt detn. in blood and biol. tissues by flameless atomic absorption (A), 1211
- rapid detn. of plasma and erythrocyte lithium concns. by atomic absorption spectroscopy (A), 1210
- Australian antibody**

high-pressure liquid-chromatog. detn. of 5-(4-hydroxyphenyl)-5-phenylhydantoin in urine, 1672

## 25-Hydroxyvitamin D<sub>3</sub>

measurement of 25-hydroxyvitamin D<sub>3</sub> in

serum, 364

## Hyperargininemia

enzyme-loaded erythrocytes in in-vitro correction of arginase-deficient erythrocytes in familial hyperargininemia, 323

## Hyperlipemia

interferences with the starch-iodine assay for serum amylase acty., and effects of hyperlipemia, 2006

## Hyperlipidemia

quant. gas-chromatog. flame-ionization method for *p*-chlorophenoxyisobutyric acid in human serum and saliva, 884

## Hyperlipoproteinemia

serum cholesterol and triglycerides by gas-liquid chromatography, compared with a continuous-flow technique, 1692

stability of fatty acids in hyperlipoproteinemic plasma during long-term storage, 445

## Hypoalbuminemia

absence of hypoalbuminemia in patients undergoing digoxin therapy, as related to use of digoxin RIA kits (L), 1539

## Hypothyroidism

factors influencing results for thyroxine concn. in blood, as measured in paper filter spots in screening for neonatal hypothyroidism (SN), 1392

## IFCC

provisional recommendation (1974) on IFCC methods for measurement of catalytic concn. of enzymes (SR), 380

## Ig

See Immunoglobulin(s), Immunologic disorders

## Imipramine

effect of imipramine on membrane-bound enzymes as a possible mechanism in induction of experimental myopathy (A), 1225

gas-chromatog. anal. for therapeutic concns. of imipramine and desipramine in plasma, with use of a nitrogen detector, 1697

meas. of tricyclic antidepressants in biol. fluids by selective ion monitoring, and pharmacokinetics of clomipramine, 892

sarcolemmal membrane changes related to enzyme release in the imipramine-serotonin exptl. animal model, 1710

## Immobilized-enzyme flow-enthalpimetric analyzer

immobilized-enzyme flow-enthalpimetric analyzer: application to glucose detn. by direct phosphorylation catalyzed by hexokinase (S), 1427

## Immobilized enzymes

immobilized glucose oxidase in continuous-flow detn. of serum glucose, 1017

## Immunoassay

digoxin immunoassay with use of [<sup>3</sup>H]digoxin vs. [<sup>125</sup>I]tyrosine-methyl-ester of digoxin (L), 286

## Immunoassay, nonisotopic

nonisotopic immunoassay (A), 1133

## Immunochemistry

See also Radioassay, Radioimmunoassay  
appp. of immunomicroscopic principles to electrophoresis, immunoelectrophoresis, and electroimmunodiffusion (A), 1201

centrifugal system for affinity chromatog. with eluate monitoring (S), 1493

comparison of methods for detection of immune complexes using monoclonal anti-gamma globulins (A), 1219

immunochem. detn. of immunoglobulins with a centrifugal analyzer, 1037

immunofixation electrophoretic techniques applied to identn. of proteins in serum and CSF, 1262

internal standn. of gel immunoelectrophoretic procedures through the use of a dual antigen-antibody system (A), 1200

removal of endogenous antigen from an antibody to increase its effective affinity constant (A), 1205

standardization in peptide hormone immunoassays: principle and practice (E), 957

turbidimetry vs. light scattering in immunochem. (L), 556

## Immunodiffusion

normative values of serum immunoglobulins by single radial immunodiffusion: review (R), 594

## Immunoelectrophoresis

changes in electrophoretic mobilities of  $\alpha$ - and  $\beta$ -lipoproteins after plasma delipidation, 305

immunofixation. III. application to the study of monoclonal proteins, 1982

## Immunofixation

immunofixation. I. general principles and application to agarose gel electrophoresis, 497

immunofixation. II: application to typing of  $\alpha_1$ -antitrypsin at acid pH (SN), 1735

immunofixation. III. application to the study of monoclonal proteins, 1982

## Immunoglobulins

biol. and anal. variation in IgA, IgM, IgG and C3 in a reference population (A), 1200

centrifugal system for affinity chromatog. with eluate monitoring (S), 1493

cerebrospinal fluid immunoglobulins: test modifications and results in multiple sclerosis (L), 1234

evaln. of FLAX system for quantn. of serum immunoglobulins G, A, and M (A), 1200

immunofixation electrophoretic techniques applied to identn. of proteins in serum and CSF, 1262

immunofixation. III. application to the study of monoclonal proteins, 1982

normative values of serum immunoglobulins by single radial immunodiffusion: review (R), 594

standardn. of human immunoglobulin quantitation: review of current status and problems (E), 577

## Immunohematology

instrumental sample-prepn. technique for an automated immunohematology assay system (S), 1456

## Immunologic methods

standardn. of human immunoglobulin quantitation: review of current status and problems (E), 577

## Immunoradiometric assay

comparison of three procedures for isolating human ferritin, for use as a std. in an immunoradiometric assay, 513

## Inborn errors of metabolism

See Inherited disorders

## Indoles

anal. for indole compds. in urine by high-performance liquid chromatography with fluorometric detection, 184

relation of pH to fluorescence of serotonin, melatonin, and other indole compounds reacted with *o*-phthalaldehyde, 2004

## Infectious hepatitis

diagnosis of infectious hepatitis by multicomponent anal. with use of field ionization mass spectrometry (S), 1503

## Information for authors

information for authors, 1

**Infrared spectrometry**  
total blood CO<sub>2</sub> and CO estimation by infrared spectrometry (A), 1189

## Inherited disorders

antenatal diagnosis of enzyme defects (A), 1143  
enzyme-loaded erythrocytes in *in-vitro* correction of arginase-deficient erythrocytes in familial hyperargininemia, 323  
erythrocyte uroporphyrinogen I synthase acty. in diagnosis of acute intermittent porphyria, 1835  
 $\alpha_1$ -fetoprotein measurement in blood spotted on paper: discriminating test for hereditary tyrosinemia in neonatal mass screening, 1001  
fluorometry of plasma amino N, with use of fluorescamine, 413  
kinetic detn. of hexosaminidases for Tay-Sachs heterozygote screening, 1631  
lab. confirmation of diagnosis of cystic fibrosis, 1841  
minicomputer-automated array spectrometer for liquid-chromatog. detection of metabolites (S), 1472  
screening for errors in galactose metabolism with the erythrocyte, 2010  
spot test for uroporphyrinogen I synthase, enzyme deficient in intermittent acute porphyria, 1991  
structure of some aliphatic dicarboxylic acids found in urine of infant with congenital lactic acidosis, 1330  
urinary org. acids in man. I. normal patterns, 1283

## Insulin

automated approach to RIA of somatotropin and insulin (S), 1510  
equil. binding studies of insulin antibodies in diabetic subjects, 1089  
evidence for chromium-insulin interaction (A), 1184  
method for improved clin. interpretation of diabetes and related diseases using a charting system that combines oral glucose tolerance testing and immunoreactive insulin assays (A), 1186

## Interlaboratory performance

anal. of results of toxicol. exams. performed by coroners' or medical examiners' laboratories in 2000 drug-involved deaths in nine major U. S. cities, 847  
interlaboratory survey of assays of five enzymes (A), 1217  
proficiency testing for blood-gas quality control, 1675  
reliability of constituent target values estab. in a large inter-lab. survey, 1027  
results: nine-lab. survey of forensic toxicol. proficiency, 843

## Intermethod comparison

atomic absorption assays of blood lead: Delves cup vs. graphite furnace (A), 1209  
clin. evaln. of five quant. methods for urinary total-protein detn. (A), 1201  
comparison of methods for the detn. of diphenylhydantoin: GLC, HPLC, and EMIT (A), 1207  
comparison of normal-range data for bilirubin by five methods (A), 1211  
comparison of results for 13 clin. lab. detns. with three automated anal. systems, 346  
comparison of RIA enzymatic immunoassay (EMIT) and gas-liquid chromatog. procedures for detn. of diphenylhydantoin in serum (A), 1207  
creatinine kinase isoenzyme patterns in human tissue obtained at surgery, 173  
EMIT opiate assay vs. gas-chromatog.-mass-spectrometric detn. of morphine and codeine in urine (SN), 1110  
equil. binding studies of insulin antibodies in diabetic subjects, 1089  
erythrocyte porphyrin anal. in detection of Pb poisoning in children: evaln. of four micromethods, 161  
evaln. of a new enzymatic kit for serum triglycerides (SN), 520  
evaln. of the Beckman CI-CO<sub>2</sub> Analyzer, 1868  
immobilized-enzyme flow-enthalpimetric analyzer: application to glucose detn. by direct phosphorylation catalyzed by hexokinase (S), 1427  
kinetic enzymatic method for measuring cholesterol in serum (SN), 2042  
kinetic meas. of glucose with a centrifugal analyzer: hexokinase and glucose oxidase procedures compared (SN), 1100  
lactate dehydrogenase acty. in serum and plasma, 1024

methotrexate in blood, urine, and cerebrospinal fluid of children receiving high doses by infusion, 1053  
microcalorimetric detn. of glucose in ref. samples of serum, 1685  
performance studies, Technicon "SMAC" analyzer: precision and comparison of values with methods in routine lab. service, 489  
*p*-hydroxybenzoic acid hydrazide proced. for serum glucose adapted to the Technicon "SMA 12/60," compared with other glucose methods (SN), 263  
plasma high-density lipoprotein cholesterol concns. detd. after removal of other lipoproteins by heparin-manganese pptn or by ultracentrif. 1828  
polarographic method for rapid microdetn. of cholesterol with cholesterol esterase and cholesterol oxidase, 336  
primidone anal.: correlation of gas-chromatog. assay with enzyme immunoassay (SN), 901  
relative merits of some methods for amphetamine assay in biol. fluids, 789  
RIA compared to thin-layer and gas-liquid chromatog. for detecting methadone in urine (SN), 1915  
RIA, enzyme immunoassay, spectrophotometry, and gas-liquid chromatog. compared for detn. of phenobarbital and diphenylhydantoin, 749  
RIA for serum cortisol with <sup>125</sup>I-labeled ligand: three methods compared, 1845  
serum cholesterol and triglycerides by gas-liquid chromatography, compared with a continuous-flow technique, 1692  
serum quinidine concns.: comparison of fluorescence, gas-chromatog., and gas-chromatog./mass-spectrometric methods, 810  
three-way comparison of serum cholesterol methods in routine lab. operation (A), 1221

## International Federation of Clin. Chem.

provisional recommendation on quality control in clin. chem. part 1. general principles and terminology (SR), 532

## Intestinal transport

active intestinal transport of several vitamins by the frog (A), 1193

## Intracerebral murine ependymoblastomas

gas-chromatographic anal. for 1,2,5,6-dianhydrogalactitol, an anti-neoplastic agent, in plasma, 1639

## Intrinsic factor

immobilization of intrinsic factor on walls of polypropylene tubes (A), 1182

## Ion chromatography

ion chromatog.: new technique for clin. chem. (S), 1424

## Ion-selective electrodes

new techniques for ion-selective measurements of ionized Ca in serum after pH adjustment of aerobically handled sera, 461

## Iron

ferritin and bodily iron stores (L), 1540  
rapid, micro radioreceptor assay for total iron-binding capacity and unsaturated iron binding capacity (A), 1183  
serum iron detn. in patients receiving therapy with iron dextran ("Imferon") (SN), 524  
single-tube technique for direct measurement of serum iron and iron binding capacity using Ferrozine (A), 1210

## Iron-binding capacity

single-tube technique for direct measurement of serum iron and iron binding capacity using Ferrozine (A), 1210

## Iron dextran

serum iron detn. in patients receiving therapy with iron dextran ("Imferon") (SN), 524

## Isosorbide nitrate

simultaneous GC measurement of plasma isosorbide dinitrate, -2-mononitrate, and -5-mononitrate (L), 2060

## Jaffe reaction

reaction of alk. sodium picrate with creatinine: I. kinetics and mechanism of formation of the mono-creatinine picric acid complex, 1664

## Japan, clin. chem. in

Japan, 566

## Ketamine

thin-layer and gas-chromatographic detn. of ketamine and some *in vivo* metabolites (A), 1191

## 17-Ketosteroids

comparative chromogenicities and discrepant spectra obtained between heterogeneous and homogeneous Zimmermann reactions (A), 1170  
simple detn. of 3 $\alpha$ -hydroxy fraction and 3 $\beta$ -hydroxy fraction of urinary 17-ketosteroids, 1066

## Kidney

See Renal

## Kidney disease

alterations in proportions of serum phospholipids in chronic renal failure (L), 1938  
influence of renal insufficiency on glucose values (A), 1213  
simplified detn. of plasma inulin in testing kidney function (L), 1239  
use of values for Ca and protein in serum, and of a derived index obtained from a probability population sample (SN), 1723

## Kinetic analysis

evaln. of a computerized stopped-flow spectrophotometer for kinetic anal. (A), 1160  
kinetic data anal. on the CentrifChem computer system (A), 1161

## Kinetic enzyme assay

improved sepn. of creatine kinase cardiac isoenzyme in serum by batch fractionation, 92  
kinetic detn. of serum lipase acty. with the Abbott ABA-100, 607  
propagation of error anal. of the enzyme acty. expression. a model for detg. total system random error of a kinetic enzyme analyzer (S), 1438

## Kit methods

absence of hypoalbuminemia in patients undergoing digoxin therapy, as related to use of digoxin RIA kits (L), 1539  
adaptation of the acid citrate-agar gel method for hemoglobin electrophoresis (SN), 1743  
comparison of four kits for enzymatic detn. of ethanol in blood, 83  
comparison of two kit methods for measurement of serum gastrin (A), 1188  
complement C3 in serum and plasma, as measured by radial immunodiffusion with four commercial kits, 267  
detn. of serum folate: comparison of four commercially available iodinated radioassay kits (A), 1227  
EMIT opiate assay vs. gas-chromatog.-mass-spectrometric detn. of morphine and codeine in urine (SN), 1110  
evaln. of a new enzymatic kit for serum triglycerides (SN), 520  
evaln. of 3 commercially available manual "kit" methods for serum triglycerides (SN), 1896  
evaln. of EMIT technique for detn. of serum digoxin (SN), 1899  
interbatch variability in measurement of urinary amylase with a commercial kit (L), 556  
poor sepn. of CK isoenzymes with column-chromatog. kits (L), 552  
RIA of plasma renin acty. 250  
simplified RIA for triiodothyronine: evaln. of a new commercial kit (SN), 1402  
stable liquid control sample for pregnancy testing (A), 1215  
use of polyethylene glycol in sepn. bound from unbound ligand in RIA of thyroxine, 299

## Kober reaction

chemistry of the Kober reaction (SN), 679  
Kober-reaction chromogen (L), 1545

## Laboratory aid

evaln. of a new system ("Corvac") for sepg. serum from blood for routine lab. procedures, 1012

## Laboratory safety

"Legion disease" prompts new attention to lab. safety (L), 1939  
The Occupational Safety and Health Act (OSHA) and laboratory safety (A), 1145

## Lactate

automated enzymatic detn. of L-lactate in serum with a miniature centrifugal analyzer (SN), 2038  
clin. signif. of spinal fluid lactic acid by the DuPont aca (A), 1220  
spectrophotometric and electrochem. detns. of L-lactate in blood by use of lactate dehydrogenase from yeast, 1802

## Lactate dehydrogenase

automated sepn. and measurement of lactate dehydrogenase isoenzymes, 468  
automated sepn. and quantn. of isoenzymes by high-pressure liquid chromatography (A), 1179  
best buffer for assay of lactate dehydrogenase, lactate-to-pyruvate reaction, 1872  
catabolism of plasma enzymes, as studied with <sup>125</sup>I-labeled lactate dehydrogenase-1 in the rabbit, 1269  
clin. column-chromatographic method for two-fraction isolation of LD-5 and CK-MB; LD-1,2. evaln. in alcoholic patients (A), 1203

comparison of Na, K, LD, total protein and hemoglobin in capillary plasma, capillary serum, and venous serum (A), 1212  
 detection of LDH inhibitors in NADH by kinetic methods, 1648  
 detn. of lactate dehydrogenase isoenzyme acty. by kinetic microcalorimetry (A), 1177  
 effect of reaction initiator on lactate dehydrogenase assay (SN), 1098  
 high-pressure liquid-chromatographic sepn. of lactate dehydrogenase isoenzymes, 471  
 how accurate are LDH isoenzyme estimations by the thin-layer agarose fluorescent technique? 1995  
 interconverting measurements of lactate dehydrogenase activities in pyrophosphate, tris(hydroxymethyl)aminomethane and 2-amino-2-methyl-1-propanol (A), 1177  
 lactate dehydrogenase acty. in serum and plasma, 1024  
 multiple isoenzyme assay by continuous-flow anal. of high-performance liquid-chromatographic eluates (A), 1178  
 quantn. of carcinoembryonic antigen, glucose phosphate isomerase, gamma-glutamyl transpeptidase, and lactate dehydrogenase in human fetal, normal adult, and malignant intestinal tissues (A), 1175  
 rates of disappearance from plasma of enzymes labeled by coupling with a radioactive iodo-ester, 1277  
 tetrazolium procedure for the "HBD"/LDH ratio (A), 1177  
 time-dependency of human LDH isoenzyme 5 inhibition by urea (L), 2059

#### Laser

use of laser nephelometry in measurement of serum proteins (S), 1465

#### LDH

See Lactate dehydrogenase

#### Lead

anal. of Pb concn. in tapwater in homes of children with known elevated blood Pb (A), 1209  
 atomic absorption assays of blood lead: Delves cup vs. graphite furnace (A), 1209  
 erythrocyte porphyrin anal. in detection of Pb poisoning in children: evaln. of four micromethods, 161  
 erythrocyte protoporphyrin in children with recurrent Pb intoxication (A), 1209  
 micromethod for blood Pb anal. by anodic stripping voltammetry, 221  
 organic Pb poisoning resulting from gasoline sniffing (A), 1209  
 use of erythrocyte protoporphyrin and Pb in blood in screening a pediatric population for undue Pb exposure (A), 1209

#### Lead poisoning

erythrocyte uroporphyrinogen I synthase acty. in diagnosis of acute intermittent porphyria, 1835

#### Lecithin:cholesterol acyltransferase

deficiency  
 detn. of apolipoprotein A and its constitutive A-I and A-II polypeptides by separate electroimmunoassays, 315

#### Lecithin:sphingomyelin ratio

specificity and reproducibility of acetone pptn. in identifying surface-active phosphatidylcholine in amniotic fluid (SN), 681

#### Leukocytes

biol. and anal. sources of varn. in leukocyte concns. using a very precise automated analyzer (A), 1212  
 procedures compared for extracting free amino acids from polymorphonuclear leukocytes, 1618

#### Lidocaine

detn. in serum of therapeutic concns. of lidocaine and procainamide by use of HPLC (A), 1167

#### Light scattering

turbidimetry vs. light scattering in immunochem. (L), 556

#### Lipase

diagnostic use of pancreatic lipase detn. by radial enzyme diffusion, and design of a routine pancreatic profile, 638  
 evaln. of lipase acty. in serum by radial enzyme diffusion, 633  
 is the lipase in normal serum of pancreatic origin? (A), 1212  
 kinetic detn. of serum lipase acty. with the Abbott ABA-100, 607

#### Lipase in tissues, urine

evaln. of lipase acty. in serum by radial enzyme diffusion, 633

#### Lipids

addn. of triglyceride to serum for use in qual. control and reference, 1299  
 binding of bilirubin and palmitate by fragments of human serum albumin (A), 1201  
 cholesterol oxidase-based detn., by continuous-flow anal. of total and free cholesterol in serum, 1627  
 cholesterol-rich bovine lipoprotein used to enhance cholesterol concns. in prepn. of serum control materials, 1302  
 DEAE Sephadex LH-20 column chromatog. of digoxin and metabolites and phospholipids (A), 1226  
 direct enzymatic method for detn. of serum triglycerides using glycerol dehydrogenase (A), 1195  
 effect of lipids on turbidity in lyophilized control sera (A), 1215  
 electrophoretic detn. of type III hyperlipoproteinemia (A), 1194  
 evaln. of an enzymatic, single reagent procedure for anal. of serum triglycerides on the ABA-100 (A), 1195  
 evaln. of a new enzymatic kit for serum triglycerides (SN), 520  
 evaln. of totally enzymatic, continuous-flow methods for serum cholesterol and triglyceride (A), 1195  
 simplified, totally enzymatic method for the detn. of serum triglycerides on the CentrifChem (A), 1197  
 stability of fatty acids in hyperlipoproteinemic plasma during long-term storage, 445

#### Lipoamide dehydrogenase

lipoamide dehydrogenase in serum: prelim. report (SN), 275

#### Lipoproteinemia

See also Lipoproteins

#### Lipoproteins

changes in electrophoretic mobilities of  $\alpha$ - and  $\beta$ -lipoproteins after plasma delipidation, 305  
 detn. of apolipoprotein A and its constitutive A-I and A-II polypeptides by separate electroimmunoassays, 315  
 enzymatic detns. of cholesterol in high-density-lipoprotein fractions prepd. by precipitation (SN), 98  
 nature of the interaction between low-density lipoproteins and polyanions and metal ions, as exemplified by heparin and  $\text{Ca}^{2+}$ , 1812  
 plasma high-density lipoprotein cholesterol concns. detd. after removal of other lipoproteins by heparin-manganese pptn. or by ultracentrifug. 1828

#### Liquid scintillation

quench-correction techniques in liquid scintillation (L), 928

#### Lithium

rapid detn. of plasma and erythrocyte lithium concns. by atomic absorption spectroscopy (A), 1210

#### Liver disease

anomalous behavior of glutathione reductase on diln. 1005  
 automated fluorometric method for detn. of sorbitol dehydrogenase and its application to assessment of liver damage in bovine mycotoxicosis (A), 1224  
 clin. usefulness of measuring prothrombin time as a routine admission test, 1644  
 diagnostic use of pancreatic lipase detn. by radial enzyme diffusion, and design of a routine pancreatic profile, 638  
 double-antibody enzyme immunoassay applied to human  $\alpha_1$ -fetoprotein, 198  
 plasma tropocaine esterase acty. in control subjects and in subjects with liver failure, diabetes and myocardial infarction (A), 1203  
 profiles of uv-absorbing components of urine from autistic children, as obtained by high-resolution ion-exchange chromatog. (S), 1528  
 quant. fractionation of alk. phosphatase isoenzymes according to thermostability, 42  
 RIA of bile acids in serum, 602  
 serum alk. phosphatase measured by using thymol blue monophosphate and a bichromatic analyzer (SN), 1737  
 technical pitfalls in measurement of venous plasma  $\text{NH}_3$  concn. 663  
 X-prolyl dipeptidyl-aminopeptidase acty., with X-proline p-nitroanilides as substrates, in normal and pathological sera, 1256

#### Liver function test

RIA of bile acids in serum, 602

#### Lutiberin

recently discovered hypothalamic-pituitary hormones (R), 5

#### Lysozyme

evaln. of serum lysozyme in differentiation of inflammatory bowel disease (A), 1204

serum lysozyme in Crohn's disease and ulcerative colitis (A), 1204

#### Magnesium

concurrent detn. of total serum Ca with Mg by thermometric titration with EDTA, 1084  
 quantn. of serum Mg with a centrifugal analyzer (CentrifChem) (A), 1196

#### Malpractice suits

"court evidence stressed in malpractice suits" (A), 1146

#### Marihuana

effect of marihuana (delta-9 tetrahydrocannabinol) on secretion of sex hormones in the mature male rhesus monkey (A), 1184  
 effect of marihuana (delta-9 tetrahydrocannabinol) on the secretion of luteinizing hormone in the mature female rhesus monkey (A), 1184  
 marihuana metabolites in urine of man, VI. recovery of acidic metabolites by sequential thin-layer chromatog. (A), 1198

#### Mass fragmentography

detection and quantn. of phenacycline in blood by use of [ $^3\text{H}$ ]phenacycline and select ion monitoring applied to phenacycline intxn. 1623  
 toward absolute methods in clin. chem.: application of mass fragmentography to high-accuracy analyses, 1789

#### Mass spectrometry

chemical ionization mass spectrometry for rapid assay of antiepileptic drugs (A), 1207  
 critical evaln. of the contributions of GC-MS to emergency toxicology service (A), 1198  
 detection and quantn. of phenacycline in blood by use of [ $^3\text{H}$ ]phenacycline and select ion monitoring applied to phenacycline intxn. 1623  
 development and use of anal. systems based on mass spectrometry (A), 1131  
 diagnosis of infectious hepatitis by multicomponent anal. with use of field ionization mass spectrometry (S), 1503  
 gas chromatog. and mass spectrometry in anal. of underivatized volatile human or animal constituents of clin. interest (R), 1775  
 monitoring drug concns. in a case of combined overdosage with primidone and methsuximide (CR), 915  
 organic acids in urine from human newborns, 49  
 structure of some aliphatic dicarboxylic acids found in urine of infant with congenital lactic acidosis, 1330  
 toward absolute methods in clin. chem.: application of mass fragmentography to high-accuracy analyses, 1789

#### Mechanized analysis

See Analytical systems, Centrifugal analyzer, Continuous-flow analysis, or specific instrument of interest

#### Meconium

lab. confirmation of diagnosis of cystic fibrosis, 1841

#### Melatonin

relation of pH to fluorescence of serotonin, melatonin, and other indole compounds reacted with o-phthalaldehyde, 2004

#### Membrane integrity

procedures compared for extracting free amino acids from polymorphonuclear leukocytes, 1618  
 sarcolemmal membrane changes related to enzyme release in the imipramine-serotonin exptl. animal model, 1710

#### Meningitis

clin. signif. of spinal fluid lactic acid by the DuPont aca (A), 1220

#### Mercury

automated method for detn. of Hg in urine, 1604  
 modified detn. of total and inorg. Hg in urine by cold vapor atomic absorption spectrometry (SN), 1719

#### Metabolism

metabolic response of humans to ingestion of nicotinic acid and nicotinamide, 1821

#### Methadone

RIA compared to thin-layer and gas-liquid chromatog. for detecting methadone in urine (SN), 1915

#### Methaqualone

methaqualone assay by RIA and gas chromatography (L), 689

#### Methemoglobin

mechanism for conversion of oxyhemoglobin to methemoglobin by nitrite, 1986

#### Methotrexate

enzymatic assay for methotrexate in serum and cerebrospinal fluid, 785  
 methotrexate in blood, urine, and cerebrospinal fluid of children receiving high doses by infusion, 1053

- rapid RIA for methotrexate in biol. fluids, 813  
study of contaminants and metabolites during therapy with high doses of methotrexate (L), 1937
- 3-Methoxy-4-hydroxymandelic acid**  
thin-layer chromatog. detn. of urinary 3-methoxy-4-hydroxymandelic acid (A), 1169
- Methsuximide**  
monitoring drug concns. in a case of combined overdosage with primidone and methsuximide (CR), 915
- Miconazole**  
unusual *in vivo* and *in vitro* effects of Miconazole and its vehicle solutions on serum lipoproteins (A), 1190
- $\beta_2$ -Microglobulin**  
measuring the concn. of urinary proteins according to mol. size category, 667
- Mineral metabolism**  
See Trace elements or specific element of interest
- Mitochondria**  
beta-carotene content of certain organs from two patients receiving high doses of beta-carotene (CR), 922
- Molar absorptivity**  
detn. of the molar absorptivity of NADH, 141  
molar absorptivities of  $\beta$ -NADH and  $\beta$ -NADPH, 151
- Molecular pathology**  
is molecular pathol. an endless frontier? (A), 1140
- Monitoring therapy**  
high-pressure liquid-chromatog. detn. of 5-(4-hydroxyphenyl)-5-phenylhydantoin in urine, 1672
- Morphine**  
improved detection of morphine on TLC plates (L), 396
- Multicomponent analysis**  
diagnosis of infectious hepatitis by multicomponent anal. with use of field ionization mass spectrometry (S), 1503  
multicomponent anal. by rapid scanning fluorescence spectroscopy (S), 1483
- Multiple myeloma**  
anion gap: its use in quality control, 643  
negative anion gap in a young adult with multiple myeloma (CR), 1920
- Multiple sclerosis**  
cerebrospinal fluid immunoglobulins: test modifications and results in multiple sclerosis (L), 1234  
immunofixation electrophoretic techniques applied to identn. of proteins in serum and CSF, 1262  
use of laser nephelometry in measurement of serum proteins (S), 1465
- Myoglobin**  
RIA for human serum myoglobin (A), 1204
- Myopathy**  
effect of imipramine on membrane-bound enzymes as a possible mechanism in induction of experimental myopathy (A), 1225
- NAD<sup>+</sup>**  
NAD<sup>+</sup>, CN<sup>-</sup>, and a spectrophotometric artifact (L), 1756
- NADH**  
detection of LDH inhibitors in NADH by kinetic methods, 1648  
detn. of the molar absorptivity of NADH, 141  
evaln. of reduced NADH stability of high-performance liquid chromatography (A), 1179  
molar absorptivities of  $\beta$ -NADH and  $\beta$ -NADPH, 151  
purifn. and anal. of the purity of NADH, 1322  
purifn. of NADH by column chromatography for routine use for enzyme determinations in the clin. lab. (A), 1176
- NADPH**  
molar absorptivities of  $\beta$ -NADH and  $\beta$ -NADPH, 151
- Nail**  
amino acid compn. of human nail, as measured by gas-liquid chromatog. 1608

laser modification of a Union Carbide CentrifChem Model 300 for use in kinetic and equilibrium detns. of body-fluid proteins (A), 1196

measurement of total protein and albumin in serum with a centrifugal analyzer, 1102

measuring the concn. of urinary proteins according to mol. size category, 667

parallel electrophoretic fractionation of alk. phosphatase and serum protein on cellulose acetate strips: clin. evaln. (SN), 261

profile anal. of blood proteins with a centrifugal analyzer, 657

quantn. of urinary and spinal fluid proteins by a modified biuret method (A), 1201

serum beta<sub>2</sub> microglobulin concns. in health and disease (A), 1211

simple Ca-protein index for use in preliminary evalns. (A), 1226

use of laser nephelometry in measurement of serum proteins (S), 1465

use of values for Ca and protein in serum, and of a derived index obtained from a probability population sample (SN), 1723

**Prothrombin time**

clin. usefulness of measuring prothrombin time as a routine admission test, 1644

**Protoporphyrin**

erythrocyte protoporphyrin in children with recurrent Pb intoxication (A), 1209

use of erythrocyte protoporphyrin and Pb in blood in screening a pediatric population for undue Pb exposure (A), 1209

**Pseudouridine**

modified nucleosides in urine: selective removal and anal. (S), 1451

**Psoriasis**

enzymatic assay for methotrexate in serum and cerebrospinal fluid, 785

**Psoriatic arthritis**

amino acid compn. of human nail, as measured by gas-liquid chromatog. 1608

**Pulmonary disease**

immunofixation. II: application to typing of  $\alpha_1$ -antitrypsin at acid pH (SN), 1735

inborn  $\alpha_1$ -antitrypsin in two mouse inbred strains and their F<sub>1</sub>-hybrid and their resistances to pulmonary disease (A), 1217

**Purine metabolism**

improved microscale assay for purine phosphoribosyltransferase activities, 67

**Purine-nucleoside phosphorylase**

increased purine-nucleoside phosphorylase activity in erythrocytes of gouty patients (L), 939

**Purine phosphoribosyltransferase**

improved microscale assay for purine phosphoribosyltransferase activities, 67

**Pyridoxal-5'-phosphate**

aspartate aminotransferase acty. in serum. factors in supplementation with pyridoxal-5'-phosphate in vitro, 1876

**Quality control**

addn. of triglyceride to serum for use in qual. control and reference, 1299

anion gap: its use in quality control, 643

cholesterol-rich bovine lipoprotein used to enhance cholesterol concns. in prepn. of serum control materials, 1302

correlation of selected serum constituents: 2. consistency of intra-individual correlation values, means, and variances during 4 months, 1855

design of clin. chem. qual.-control sera, 500

design of quality-control sera for multi-channel analyzers (A), 1214

effective quality control (L), 398

evaln. of commercial quality controls for ionized calcium (A), 1214

evaluation of a new micro collecting device (SN), 2034

good quality control in GLC (A), 1216

interpretation and RIA quality-control use of parameters with six different data-reduction methods (A), 1215

intra-individual variation of serum constituents: 6. normal day-to-day variation in concns. of 10 specific proteins in sera, 1635

laboratory assay system reliability estimates for multiple parameter quality-control detns. in the radioreceptor assay lab. (A), 1227

long-term quality-control charting: simple method (SN), 270

long-term reproducibility of a new pH and blood-gas quality-control system compared to two other procedures, 1817

misuse of calibration sera in automated lab. instruments (L), 1940

orthogonal polynomial regression in calibration and standn. of automated methods (A), 1160

performance studies, Technicon "SMAC" analyzer: precision and comparison of values with methods in routine lab. service, 489

prepn. of lyophilized isoenzyme controls (A), 1214

prepn. of optically clear lyophilized human serum for use in control material, 456

proficiency testing for blood-gas quality control, 1675

provisional recommendation on quality control in clin. chem. part 1. general principles and terminology (SR), 532

provisional recommendation on quality control in clin. chem. part 2. assessment of anal. methods for routine use (SR), 1922

quality-control materials for pH and pCO<sub>2</sub> detns. (A), 1215

quality-control program for the RIA lab. (A), 1192

quality-control soln. for use in the "dA<sub>450</sub>" detn. on amniotic fluid (L), 1935

quality performance criteria for assessing the technical adequacy of radioreceptor assays (A), 1226

reliability of constituent target values estab. in a large inter-lab. survey, 1027

sample stability: suggested definition and method of detn. 176

scheme for monitoring Bichromatic Analyzer ABA-100 optical performance (A), 1217

stability and precision of a new ampuled quality-control system for pH and blood-gas (SN), 1399

statistical charactn. of random errors in the RIA dose-response variable, 350

two novel approaches combined to improve quality assurance (both within-batch and batch-to-batch) in the routine clin. chem. lab. (A), 1216

**Quinidine**

serum quinidine concns.: comparison of fluorescence, gas-chromatog., and gas-chromatog./mass-spectrometric methods, 810

**Radial enzyme diffusion**

diagnostic use of pancreatic lipase detn. by radial enzyme diffusion, and design of a routine pancreatic profile, 638

evaln. of lipase acty. in serum by radial enzyme diffusion, 633

**Radial immunodiffusion**

use of laser nephelometry in measurement of serum proteins (S), 1465

**Radioassay**

absence of hypoalbuminemia in patients undergoing digoxin therapy, as related to use of digoxin RIA kits (L), 1539

automated approach to RIA of somatotropin and insulin (S), 1510

automated RIA of choriomammotropin, 1655

automatic quant. radiometric assay of bacterial metabolism (S), 1459

bile acid and detergent interaction with radioassays based on coated charcoal (SN), 1727

comparison of several transformations for thyroxine radioassay data (A), 1161

decreased radioassay values for folate after serum extraction when pteroylglutamic acid standards are used, 647

detn. of serum folate: comparison of four commercially available iodinated radioassay kits (A), 1227

development of chemistries for a fully automated RIA instrument, Micromedic Systems' "Concept 4 Automatic Radioassay" (A), 1164

development of Micromedic Systems' "Concept 4 Automatic Radioassay" system (A), 1164

diphenylhydantoin in 0.1-ml plasma samples: gas chromatography and RIA compared, 246

direct RIA for serum estradiol during pregnancy, 484

evaln. of an I-125 folate radioassay kit (A), 1227

faster RIA of progesterone in plasma, with use of polyethylene glycol as precipitant, 1659

interference of fatty acids in the competitive protein-binding assay for serum thyroxine, 673

measurement of changes in plasma epinephrine and norepinephrine during continuous work using a rapid, new radiometric assay (A), 1170

measurement of 25-hydroxyvitamin D<sub>3</sub> in serum, 364

method for removal of folate binding proteins prior to serum folate radioassay (A), 1182

modification of a liquid scintillation counter to decrease cost, time for RIA (SN), 1746

nonchromatographic RIA of unconjugated estradiol in plasma, with polyethylene glycol as precipitant, 359

performance characteristics of the thyroxine test on "Concept 4 Automatic Radioassay" (A), 1165

quantitative enzyme immunoassay: current status (R), 733

reduced variation of tracer binding in digoxin RIA by use of [ $^{125}\text{I}$ ]-labeled tyrosine-methyl-ester deriv.: relation of thyroxine concn. to binding (SN), 1732

- radioisotopic procedure for detn. of nortriptyline in plasma, 761
- Triglycerides**
- adaptation of enzymatic triglycerides to Technicon's SMA multichannel biochemical analyzer and AutoAnalyzer-II anal. systems (A), 1193
- effect of mannitol (Osmolint) intoxication on serum "triglyceride" values (L), 935
- effect of two new serum-separating devices on results for cholesterol and triglyceride (L), 936
- enzymatic method for detn. of serum triglycerides with a centrifugal analyzer, 1310
- evaln. of a new enzymatic kit for serum triglycerides (SN), 520
- evaln. of 3 commercially available manual "kit" methods for serum triglycerides (SN), 1896
- faster continuous-flow anal. for triglycerides and cholesterol (L), 558
- integrated approach to lipid profiling: enzymatic detn. of cholesterol and triglycerides with a centrif. analyzer, 188
- lipase problem in an enzymatic procedure for serum triglycerides (L), 558
- serum cholesterol and triglycerides by gas-liquid chromatography, compared with a continuous-flow technique, 1692
- Triiodothyronine**
- direct and indirect measurement of triiodothyronine in serum (A), 1180
- rapid T-3 uptake assay utilizing immobilized T-3 antibody as the bound-free separating agent (A), 1181
- reuse of disposable Sephadex columns for a triiodothyronine uptake test (L), 118
- simplified RIA for triiodothyronine: evaln. of a new commercial kit (SN), 1402
- single-tube solid-phase total T-3 RIA (A), 1180
- triiodothyronine RIA: incubation time, temp., and antisera (L), 396
- use of polyethylene glycol in sepn. bound from unbound ligand in RIA of thyroxine, 299
- Tropacocaine esterase**
- plasma tropacocaine esterase acty. in control subjects and in subjects with liver failure, diabetes and myocardial infarction (A), 1203
- Turbidimetry**
- further on light scatter vs. turbidimetry (L), 393
- kinetic detn. of serum lipase acty. with the Abbott ABA-100, 607
- turbidimetry vs. light scattering in immunochem. (L), 556
- Tyrosinemia**
- $\alpha_1$ -fetoprotein measurement in blood spotted on paper: discriminating test for hereditary tyrosinemia in neonatal mass screening, 1001
- Ultraviolet spectrometry**
- minicomputer-automated array spectrometer for liquid-chromatog. detection of metabolites (S), 1472
- Ultraviolet spectroscopy**
- reversed-phase liquid-chromatog. anal. of hemodialysate from uremic patients (S), 1522
- Urea**
- direct enzymatic detn. of urea in plasma and urine with a centrifugal analyzer, 1614
- four commercial urease reagents and a lab.-prepared reagent compared for anal. of blood urea N with the Beckman Analyzer (SN), 683
- rapid-flow enthalpimetric detn. of urea in serum, using an immobilized urease reactor, 1314
- rapid microanalyzer for glucose and urea (L), 1537
- Urea nitrogen**
- new immobilized enzyme analyzer for urea nitrogen assays (A), 1221
- Uremia**
- cation-exchange chromatography of guanidine derivs. in plasma of patients with chronic renal failure, 240
- diphenylhydantoin in 0.1-ml plasma samples: gas chromatography and RIA compared, 246
- reversed-phase liquid-chromatog. anal. of hemodialysate from uremic patients (S), 1522
- Uric acid**
- adaptation of a fully enzymatic method for the detn. of uric acid to the centrifugal analyzer, with early reading blank correction (A), 1136
- adaptation of blank-corrected methods for measurement of total and conjugated bilirubin and uric acid to the centrif. analyzer, 429
- appn. of an enzymatic uric acid procedure to the Technicon SMA 12/60 (A), 1220
- enzymatic uric acid detn. at 500 nm by Trinder method (A), 1223
- evaln. of thymol-preserved aqueous standards in quantn. of uric acid by the direct acid ferric reduction procedure (A), 1215
- evaluation of a novel new micro enzymatic uric acid method for continuous flow analyzers (A), 1225
- new ultraviolet (340 nm) method for assay of uric acid (A), 1224
- ultramicro method for detn. of plasma uric acid, 964
- Uridine kinase**
- uridine kinase activities in normal and neoplastic lymphoid cells (A), 1175
- Urinalysis**
- routine urine testing with a multi-function system (A), 1184
- Urine**
- anal. for indole compds. in urine by high-performance liquid chromatography with fluorometric detection, 184
- automated method for detn. of Hg in urine, 1604
- detn. of salicylate and its metabolites in urine (L), 395
- direct enzymatic detn. of urea in plasma and urine with a centrifugal analyzer, 1614
- electrophoretic pattern of amylase isoenzymes in serum and urine of normal persons, 439
- glucose oxidase chemiluminescence measurement of glucose in urine compared with hexokinase method (SN), 372
- high-pressure liquid-chromatog. detn. of 5-(4-hydroxyphenyl)-5-phenylhydantoin in urine, 1672
- improved assay for urinary 17-hydroxycorticosteroids, 232
- ion chromatog.: new technique for clin. chem. (S), 1424
- isolation and identn. of benzodiazepine drugs and their metabolites in urine with Amberlite XAD-2 resin and thin-layer chromatog. 1596
- modified detn. of total and inorg. Hg in urine by cold vapor atomic absorption spectrometry (SN), 1719
- modified method for urinary oxalate (L), 1538
- normal limits of urinary excretion of 11 enzymes, 1567
- organic acids in urine from human newborns, 49
- possible mechanism of the interference by porphobilinogen in the direct determination of urinary 8-aminolevulinic acid (L), 1540
- profiles of uv-absorbing components of urine from autistic children, as obtained by high-resolution ion-exchange chromatog. (S), 1528
- simple fluor. detn. of aldosterone in urine without use of isotopes or chromatography (SN), 369
- simultaneous quantn. of 4-hydroxy-3-methoxymandelic (vanilmandelic) and 4-hydroxy-3-methoxyphenylacetic (homovanillic) acids in urine, 310
- Uroporphyrinogen I synthase**
- See also Aminolevulinic dehydratase
- erythrocyte uroporphyrinogen I synthase acty. in diagnosis of acute intermittent porphyria, 1835
- spot test for uroporphyrinogen I synthase, enzyme deficient in intermittent acute porphyria, 1991
- Vanilmandelic acid**
- simultaneous quantn. of 4-hydroxy-3-methoxymandelic (vanilmandelic) and 4-hydroxy-3-methoxyphenylacetic (homovanillic) acids in urine, 310

- thin-layer chromatog. method for urinary 4-hydroxy-3-methoxymandelic acid (vanilmandelic acid) (SM), 2046
- Vapor analysis**  
alcohol detn. in biol. liquids by sensing with a solid-state detector, 863
- Variation, source of**  
alkaline phosphatase. II. Conditions affecting detn. of total acty. in serum, 977  
anal. of variation in automated detn. of Na, K, and Ca ions in human serum, 993  
aqueous temperature-indicating technique and its application to clin. lab. instrumentation, 449  
assessment of serum separator device for obtaining serum specimens suitable for clin. anal., 235  
biol. and anal. sources of varn. in leukocyte concns. using a very precise automated analyzer (A), 1212  
comparison of Na, K, LD, total protein and hemoglobin in capillary plasma, capillary serum, and venous serum (A), 1212  
correlation of selected serum constituents: 2. consistency of intra-individual correlation values, means, and variances during 4 months, 1855  
design of clin. chem. qual.-control sera, 500  
detn. of  $\text{Ca}^{2+}$  in serum that has been exposed to air, 1009  
detn. of erythrocyte folate by competitive protein-binding assay preceded by extn., 982  
effect of two new serum-separating devices on results for cholesterol and triglyceride (L), 936  
error from specimen handling before detn. of inorg. phosphate concns. in plasma and serum (SN), 1909  
evaln. of 3 commercially available manual "kit" methods for serum triglycerides (SN), 1896
- factors influencing sample evapn. in the clin. lab. (A), 1178  
interference by aspirin with some common clin. lab. assays, 837  
interference of fatty acids in the competitive protein-binding assay for serum thyroxine, 673  
interpretation of clin. chem. data with aid of automatic data processing (R), 1555  
intra- and inter-individual variation of 10 serum proteins in healthy subjects (A), 1212  
intra-individual variation of serum constituents: 6. normal day-to-day variation in concns. of 10 specific proteins in sera, 1635  
propagation of error anal. of the enzyme acty. expression. a model for detg. total system random error of a kinetic enzyme analyzer (S), 1438  
reduced variation of tracer binding in digoxin RIA by use of [ $^{125}\text{I}$ ]-labeled tyrosine-methyl-ester deriv.: relation of thyroxine concn. to binding (SN), 1732  
reliability of constituent target values estab. in a large inter-lab. survey, 1027  
sample dispersion or carryover in continuous-flow anal. practical relationships for predicting and controlling loss of wash (A), 1222  
sample stability: suggested definition and method of detn., 176  
serum ionic F: normal range, relationship to age and sex, 1884  
some theory of reference values. II. comparison of some statistical models of intraindividual variation in blood constituents, 1343  
stabilization of blood glucose by cooling with ice: an effective procedure for preservation of samples from adults and newborn infants (A), 1186
- technical pitfalls in measurement of venous plasma  $\text{NH}_3$  concn., 663  
urinary org. acids in man. II. effects of individual variation and diet on urinary excretion of acidic metabolites, 1288
- Vidicons**  
multicomponent anal. by rapid scanning fluorescence spectroscopy (S), 1483
- Vitamin A**  
beta-carotene content of certain organs from two patients receiving high doses of beta-carotene (CR), 922  
detn. of serum retinol (vitamin A) by high-speed liquid chromatog., 1593  
effects of medication on plasma vitamin A concns. (L), 694  
improved vitamin A assay (L), 1541
- Vitamin D status**  
measurement of 25-hydroxyvitamin  $\text{D}_3$  in serum, 364
- Vitamins**  
active intestinal transport of several vitamins by the frog (A), 1193  
evaln. of methods of coenzyme activation of erythrocyte enzymes for detection of deficiency of vitamins  $\text{B}_1$ ,  $\text{B}_2$ , and  $\text{B}_6$ , 327
- Water**  
water content of feces by the Karl Fischer method, 1351
- X-ray fluorescence spectroscopy**  
comparative evaln. of energy dispersive X-ray fluorescence spectroscopy and inductively coupled plasma emission spectrometry for multi-element anal. in complex biologic matrices, 2018
- Zimmermann reaction**  
simple detn. of  $3\alpha$ -hydroxy fraction and  $3\beta$ -hydroxy fraction of urinary 17-ketosteroids, 1066
- Zollinger-Ellison syndrome**  
results by three kit methods for assay of serum gastrin, 1705
